

## PROGRAM OBJECTIVES

The Preschool's objective is to enrich the lives of children by helping them grow in all areas of their development: socially, emotionally, physically, intellectually, and creatively.

- To assist children in the development of positive feelings about themselves and their capabilities.
- To build satisfying relationships with people outside of their family, other children as well as adults. To strengthen trust, to provide opportunities for socialization, to increase sensitivity to the needs and feelings of others.
- To develop kindergarten readiness skills including small and large motor skills, self-help skills, and pre-academic skills. To develop language and communication skills.
- To work with parents recognizing each child's unique individuality, seeking to understand and relate to each child.
- To create an environment where children build confidence, creativity, problem solving skills, and a sense of independence and confidence in their abilities.
- To foster opportunities for growth in language, vocabulary, and pre-literacy skills with a language rich environment.

**At Willson we believe that children do their best learning through play.**
